Percy L. Woodward Claude J. Decato Robert Ricard

## WARRANT FOR TOWN MEETING

---

### (L. S.) THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Canaan in the County of Grafton, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town House in said Canaan on Tuesday, the 10th day of March, next at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same as recommended in the budget submitted by the Budget Committee.

3. To see if the Town will authorize the Selectmen to borrow money in anticipation of Taxes.

4. To see what action the Town will take regarding the disposition of the Town tractor and all attachments thereto, the money derived from this sale to be assigned to the Capital Reserve Funds created for the eventual purchase of a new fire truck and for Town sewers.

5. To see if the Town will vote to choose one highway agent, instead of the three highway agents as has been the custom in past years, to serve in the year 1954 and succeeding years.

6. To hear the reports of agents, auditors, committees or officers heretofore chosen and pass any vote relating thereto. And to transact any other business that may legally come before the meeting.

Given under our hands and seal, this 20th day of February, in the year of our Lord nineteen hundred and fifty-three.

JAMES Q. RICARD,

JOSEPH L. GRAHAM,

Selectmen of Canaan.

### Superintendent's Report

Now that there is a lull in material gains in the form of buildings it might be well for us to take "time out," catch our breath for a second, and review what we believe are the basic aims of education in Supervisory Union No. 4, what has been done, and what might be done. We should preface this by saying that there is wide disagreement in the basic educational philosophies of those engaged in education and real differences in operating methods. Rather than be alarmed about this we should consider it a very wholesome occurrence for when people cease to disagree intelligently democracy disappears. The preservation of democracy and all it signifies is a primary aim of our education. We must watch attempts under the guise of democracy to foment unreasonable differences of opinion in order that subversive elements may assume command once these differences have so weakened our morals that internal conquest becomes easy. There are many ways of doing this.

We spend most of our efforts in this school union teaching fundamentals in the tool subjects in elementary grades with much emphasis on reading skills. In spite of contrary opinion we go on record as saying that we are doing a good job as a whole, and we have many **excellent** results. Every year some nationally standardized achievement tests are given, the Metropolitan last year. In only one subject taking the nine towns together did we have an average score below national standards. That was 5th grade spelling with .2 of a year below, largely due to one very poor grade in a small

school. Our average in reading was .2 to a full grade above with some individual grades being two to three grades above. To cite more would serve little purpose but to summarize let us say we know where we stand and others guess about it. Furthermore we take conscious steps to improve the weak spots.

Teaching fundamentals and tool subjects is, however, only one aim of education whose real object is to teach the individual to live a better life in the world of today and tomorrow. It is when we get into this problem that we get into serious differences. How should we teach democratic living? Let the pupils run the school? Some might say "Yes, to a large degree." I happen to say "No." This illustrates the point I believe. Hitting at this type of thing from another angle we may raise the question: "How much individual help does the child receive in school?" We all believe this to be important today. Can we do it with a first grade of 40 babies? Should we teach pupils to work and play together? Most people would say yes but might not agree that square dancing is a good method. "Should a child be given aid to like good music and art?" Yes, would be given most of the time. How well can this be done without teachers skilled in teaching appreciation of fine things, in part by actual participation? "Should religion be taught in schools?" will start a mental massacre among otherwise intelligent people. Certain it is that much Christian living can be, and is being taught, by teachers everyday without teaching any creed. This could go on forever but let's end this by asking ourselves how well are we doing in teaching each individual child all he can absorb in all things he may need as a good citizen living an enriched life in a world where a boy may be required to swap deer hunting in the hills of New Hampshire for a different quarry in hills on the other side of the world. Is the education of the rural school of 50 years ago and the high school curriculum

of that time, "More Latin and less Greek," good enough or is the type of education of previous generations to be held responsible for the problems facing the children of today?

Only two of my nine towns have the services of a music supervisor, none has an art instructor, only one has expert handwriting supervision, none has a kindergarten, none has a physical education instructor, and none has a specialist in remedial reading. There is no thought of complaint in the above statement but rather proof of the fact that we are offering barely the most minimum education possible. I believe the pupils, your children, could profit by some of these which will be found in really modern schools where the cost of education is not borne completely—practically speaking—by the property tax.

Any school administrator must be an idealist to keep really alive but he must be practical too. Education costs money taking the bigger part of the tax assessment in most cases in spite of our low salaries to teachers. A school executive must be practical in the situation he faces. An enriched course of study is apt to mean more money, and so do flush toilets, and school lunch programs. I happen to believe that state aid must be given in quantities sufficient so that the property tax assessment may be lowered while improving educational opportunities for our children. If and when this is done it must be done in such a manner that we can know in advance how much each district will receive. It takes more courage than we have to ask for expensive items knowing the communities as we do. We could make plans programmed over a period of years if we were sure of state aid of sufficient amounts. No one is hurt by the present amounts of aid cut to 48% due to lack of state funds except the children of the state, and I'm particularly interested in those of my nine towns. As long as legislative funds for state aid are voted after school bud-

gets are passed I can not recommend to local boards action to improve our educational system if it involves one penny of state aid. We'll use what we get to reduce the property tax assessment.

Present elementary enrollments indicate a high school membership beginning with 1954-55 of 100 or more pupils. By 1961-62 there is a possibility of 150 students. It is my opinion that an increased staff will be necessary to provide even basic education of any degree of quality. Then too costs of supplies, books, equipment and similar items will increase and total budgets will be higher. It seems unnecessary to indicate this yet many people are expressing the idea that educational costs will materially drop in the years to come. With increased enrollments in all grades it is difficult to see how decreased costs can be very great or even foreseen.

Our first grade enrollments hover around the 40 mark and a word of caution should be made. Most educators working in the field believe that 20 in the first grade is an ideal situation. There is a tremendous range of abilities and habits even in 20 first grade children and much individual attention should be given to close to  $\frac{3}{4}$  of these entering children. Many are socially immature and not ready for living part of the day with many other children. Some do not have proper health and toilet habits. Over half of them will not be ready to read before the half year and too large a number should not try to read until very late in the school year, if at all. With classes of 40 all of these problems are magnified many times. School men are being criticized for wanting too much, for building big budgets just to see them grow. Actually we are primarily concerned with the best educational opportunities we can get for **your** children. No child in a first grade, or any other grade, of 40 is getting what we would like to see.

These two situations mentioned above raise the question again of adequate school financing. Can the property owner continue to bear most or all the costs? Should he do so provided he can? There are many problems related to these questions and many partial answers. It is my belief, as previously stated, that state aid on the present formula if covered by sufficient funds is a good start in the right direction. Under this formula Canaan qualified for \$14,430.73 but due to lack of funds received \$6,958.71. The Canaan property owner bears the weight of the difference. The state slogan has been "No New Taxes." This has, and will result in more of the same kind of taxes chiefly, to you and me, the property tax. Looking ahead again a few years I believe Canaan could well use even more than \$14,000 in state aid to do justice to both the school child and the property owner. This will not come about as long as the average person feels aloof from the legislative halls of Concord for it is there that decisions are made resulting in more taxes as they now exist just as much as you people decide in your town and school meetings.

The supply of qualified elementary teachers remains very critical. Plymouth Teachers' College placed its graduates last year at an average beginning salary of \$2,640. A significant number were placed in other states at much higher figures. The same may be expected this year.

It has been a pleasure to see the continued cooperation of teachers, pupils, parents, and townspeople in various activities and projects connected with school affairs. Such is the best guarantee of future success for Canaan school pupils.

Respectfully submitted,

C. MAURICE GRAY.

# CANAAN SCHOOL DISTRICT BUDGET

1953 - 54

## EXPENDITURES

### ITEM

#### Administration:

Salaries of district officers  
Supt.'s salary (local share)  
Tax for state wide supervision

# RECEIPTS

**WARRANT FOR SCHOOL MEETING**  
**(L. S.) THE STATE OF NEW HAMPSHIRE**

To the Inhabitants of the School District in the town of Canaan, New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Town House, in said district on the seventh day of March 1953, at two o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the District will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the School Board in its annual report.
9. To see if the district will vote to authorize the School Board to use any receipts underestimated in budget for 1952-1953 to pay liabilities underestimated in 1952-1953 budget.
10. Pursuant to a petition of ten legal voters, to see if the School District will vote to amend the budget to include an additional \$1,200 for the purpose of granting each teacher \$100 increase in salary or take any action thereto.

Given under our hands at said Canaan this 20th day of February of 1953.

JOSEPH C. CHANDLER,  
FRANK K. CLARKE,  
ALFRED D. NEILY, JR.,  
School Board.
